The background of the entire image is a detailed, close-up texture of a light-colored marble. It features a complex pattern of veins in shades of cream, off-white, and light beige, interspersed with small, dark brown and tan spots and streaks. The texture appears organic and natural, typical of high-quality stone or a realistic marble-look material.

An aerial photograph of a river delta, showing a network of water channels and sediment bars. The water is a light, silty grey, and the sediment bars are slightly darker. A large black triangle is positioned in the top right corner of the image, partially obscuring the delta's edge.
